EXPERIENCE

Full Stack Developer Intern, Sponosogram   **Oct 2024 – Dec 2024**

- Developed 20+ dynamic React components, including features such as a navigation bar and search functionality.
- Converted wireframes into functional web interfaces using HTML, Tailwind CSS, and React.

Full Stack Developer Intern, SKXYWTF   **Aug 2024 – Oct 2024**

- Built responsive dashboards for data visualization using chart libraries and React components.
- Used JavaScript, TypeScript, Next.js for scalable, cross-browser compatible layouts.

PROJECTS

QuickCart & E-Commerce Cloud

— Next.js, TypeScript, Prisma, Tailwind CSS, Stripe, Clerk

- Developed an integrated e-commerce platform supporting multiple online stores, product management, and secure payments.
- Implemented a CMS for store owners to manage products, categories, and transactions seamlessly.
- Utilized Prisma ORM and MySQL for efficient data handling, with Clerk for authentication and Stripe for payments.

Interview.Online — Next.js, Convex, Clerk

- Built an interview platform enabling recruiters to conduct coding rounds, share screens, and evaluate candidates in real-time.
- Integrated scheduling features to arrange interviews and automated recording for further review.
- Used Convex for database management and Clerk for secure authentication.

SKILLS

Languages: JavaScript, Python, TypeScript
Development: Next.js, React, Node.js, HTML, CSS
Databases: MySQL, PostgreSQL, MongoDB
Tools: VS Code, Git, Postman, GitHub Actions
Technologies & Frameworks: Linux, Docker, Kubernetes, Kafka, Redis
Cloud: AWS, GCP

CORE COMPETENCIES

- Data Structures & Algorithms
- Object-Oriented Programming (OOP)
- Operating Systems (Windows, Linux)
- Computer Networks
- Database Management Systems (DBMS)
- Software Engineering (Agile, SDLC)

EDUCATION

B.Tech in Electronics and Communication Engineering
CSJM University Kanpur   2021 – 2025
Grade: 8.0/10
